Re: California State Teachers' Retirement System (CalSTRS): Employer Readiness Webinar for School Districts and Charter Schools

The purpose of this bulletin is to inform districts and charter schools that CalSTRS will be hosting three Employer Readiness webinars. These webinars will be geared toward the non-report source districts and charter schools focusing on specific functionality, and other resources will also be provided in the new Secure Employer Website (SEW). We encourage all human resource and payroll staff from school districts and charter schools to attend one of these three webinars. It will benefit you in the process of preparation for the new SEW that will go live in the fall of 2025.

The dates and times along with the link to each webinar is provided below:
