Demo Phase

- 1. Water heater and Water Dispenser:**
 - Carefully disconnect and remove from its current location before the demolition begins.
 - Properly protect and securely store in a designated area to prevent damage or deterioration during the demolition process.
 - Ensure storage preserves its condition and functionality for future reinstallation.
- 2. Kitchen:**
 - Demo and dispose of all upper and lower cabinets.
 - Demo and dispose of all FRP Panels.
- 3. Kids Sink:**
 - Demo and dispose of the kids sink.
 - Cap and remove water and sewer lines associated with the sink.
- 4. Bathroom:**
 - Demo and dispose of upper and lower cabinets.
 - Demo and dispose of both toilets and wall partition.
 - Demo and dispose of FRP Panels.
- 5. Baseboards:**
 - Demo and dispose of all baseboards throughout the designated area.
- 6. Flooring:**
 - Demo and dispose of all flooring, underlayment, and any damaged subfloor.

Please ensure that all items are handled and disposed of in compliance with relevant regulations and best practices. CONTRACTOR SHALL PROTECT PORTIONS OF EXISTING CONSTRUCTION NOT INDICATED TO BE DEMOLISHED. CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPLACEMENT & REPAIR OF ITEMS TO REMAIN.

Installation Phase:

1. Remove any nails, screws, staples ETC. Patch all walls from demo, texture to match room, prime, and paint to cover.
2. Install FRP on all walls in the kitchen and bathroom, referring to the provided drawing.
3. Level the classroom floor, patching as needed, and install underlayment and self-leveling compound, Patch any gaps as required and install flooring per the manufacturing requirements.
4. Prepare the area for two additional handwashing sinks, one for adults and one for kids, as indicated in the kitchen drawing. Also backing to be installed for wall mount sink and ensure proper support for wall mount or floor mount per manufacturer requirements.
5. Prepare plumbing in the designated area for a new dishwasher and sink.
6. Install upper and lower cabinets in the kitchen and bathroom.
7. Install 1 (one) adult hand washing station & 1 (one) kids hand washing station and attach plumbing accordingly to existing plumbing, Also install 1 (one) Soap Dispensers, and 1 (one) Paper Towel Dispensers. Soap Dispenser location will be between the two sinks and paper towel dispenser on the right of the adult sink.
8. Install 2 New kids' toilet and attach plumbing accordingly, toilet paper dispenser, and Grab Bar.
9. Install Partition wall between the two toilets.
10. Provide Power for Dishwasher & Garbage disposal(with switch at backsplash).
11. Install kitchen Sink, Garbage disposal, faucet, Dishwasher and attach plumbing accordingly, Also install Soap Dispenser, and Paper Towel Dispenser.
12. Install Bathroom Sink, faucet, Soap Dispenser, Mirror, Paper Towel Dispenser, and Backing for sink.
13. Remove do not paint around outlets, switches, cover plates, etc.
14. Install a Water ball valve shut off for the classroom with proper access cover/panel.
15. Label electrical breakers for Dishwasher and Garbage Disposal at the panel.

Note: Contractor shall protect portions of existing construction not indicated to be demolished. Contractor shall be responsible for the replacement & repair of items to remain.
